CoderDojo

1 Make sure you have a text editor installed (Atom, Notepad++ or Sublime Text). If you need help, ask a mentor to install it for you. After installing, open your text editor.

2 **Download** the zip file from **kata.coderdojo.com/Intermediate_Javascript_Sushi**.

3 **Unzip** the compressed folder and **move** it to your documents folder.

4 **Open** the **"Intermediate-Javascript-Sushi"** folder and make sure it has the same files as the screen below.
